It is a great pleasure that the two brothers, neighbor and same language speaking countries of Tajikistan and Afghanistan in pursuant to convention of first exhibition and conference on economic development of Afghanistan is witnessing the second exhibition and conference. First of all I would like to congratulate this remarkable opportunity to my brother and dear friend, His Excellency Sharif Sayed and to kind and noble people of Tajikistan.

Shih Khan Farnood
Chairman ACCI

The region we are living at is full of potential physical and economical strengths & abilities which their consumption entail exact identification of the capacities, exchange of experiences & information and expansion of trade & economic relations between the two countries of the region. Afghanistan which is located in the heart of Asia can play a significant role in economic developments in the region. For the past nine years, Afghanistan has evidenced remarkable changes in economical growth and development that can be seen in upturn developing physical and administrative infrastructures, absorption of domestic and international investments and establishment of ten-thousands of private firms in fields of banking, transportation, construction, industries, mines, agriculture and animal husbandry services. In addition to its strategic location, Afghanistan from one hand can provide an excellent ground for exchange of commodities and commercial services among southern & central Asian countries and other countries of the region, and from the other hand with consideration of possessing relative advantages, Afghanistan can supply quality goods and services to the regional and global market and in return import its necessities from abroad. Our brother and friend country, Tajikistan has a long border with Afghanistan and plays a key role in exploitation of mines, processing of agricultural stuff, energy & electricity generation and transiting of commodities among Afghanistan, other central Asian countries and China as well as it has a significant part in growth and strengthening of regional economy and in particular Afghanistan's economy. Convening the second exhibition of Afghanistan's Economic Development in the beautiful city of Doshanbe is a good opportunity for identification of such possibilities, creating shared investment opportunities, exchange of experiences & knowledge, and eventually closeness of two brother nations. Hence I am grateful to all the organizers of this joint effort and benevolent decision in Afghanistan and Tajikistan.

Hope we witness such exhibitions and conferences between the two countries in the coming years.

Shih Khan Farnood

Chairman ACCI

About

Chamber of Commerce and Industry of the Republic of Tajikistan

The Resolution of the Council of Ministries of the Tajik SSR, March 30, 1960, #130, established the Chamber of Commerce of the Tajik SSR, which was subordinated to the government of the Republic. This Resolution has also adopted the first Regulations of the Chamber. Its main goals and tasks became: fostering the development and strengthening the economic relations of Tajikistan with foreign countries as well as development of trade and industry in the Republic.

According to the Regulations, the Chamber of Commerce and Industry of the Republic of Tajikistan is a non-state, non-profit organization uniting Tajik enterprises and Tajik entrepreneurs expressing interests of enterprises, unities and organizations on issues related to implementation of economy also in the sphere of economic relations of the Republic of Tajikistan with foreign countries. The main goals of the Chamber are fostering the development of economy of the republic its integration to the world economic system, formation of modern structure of market relations, creation of favorable conditions for business activity, worldwide spreading of trade, economic and scientific-technical relations with other countries.

One of the most important directions of the Chamber activities is organization of exhibitions. First of all it is participation in international exhibitions and fairs, organization of national exhibitions in foreign countries, conduction of business meetings, symposiums on propaganda and advertising of home-produced and foreign-produced and foreign-produced goods. The Law on the CCI of RT has factually entrusted the coordination of organization issues and conduction of international and foreign exhibitions to our organization. Their general organizer is the Chamber of Commerce and Industry of the Republic. The representatives of many near and foreign countries address to the Chamber with a proposal to conduct the exhibitions and fairs. And if before we could not accept the guests because of unstable situation, today all obstacles are practically disappeared.

On May 22, 1998, Majlisi Oli of the republic adopted the Law "on the Chamber of Commerce and Industry of the Republic of Tajikistan", which has defined the juridical status of the Chamber and widened the legal field of its activity. In accordance with the Law the Regulations of the Chamber was developed and approved at the 4th Meeting of the Chamber of Commerce and Industry of the Republic of Tajikistan, October 2003. For the development of the economy of the country in market conditions there appears the necessity to establish close links between the subjects of management that is possible when true and full economic information is available. That is why the role and importance of the Chamber of Commerce and Industry of the Republic has been increasing. This organization protects the interests of Tajik entrepreneurs by creation of favourable conditions for the development and broadening the trade-economic and scientific-technical relations with other countries.

At present over 500 large, small and medium-sized organizations and enterprises of the republic with different forms of property are the acting members of the Chamber of Commerce and Industry of the Republic of Tajikistan.

The Second Afghanistan Economic Development Expo in Tajikistan

Date: 25-27 June 2010

Venue: Kokhi Barbud, Dushanbe Tajikistan

Following the success of The First Afghanistan Economic Development Expo in Tajikistan achieving contracts and sales worth 4.5 million dollars, Afghanistan Chambers of Commerce and Industries (ACCI) in close cooperation with Chamber of Commerce and Industries of Republic of Tajikistan (CCIRT) is organizing The Second Afghanistan Economic Development Expo in Tajikistan followed by a Business to Business Matchmaking Event further aiming to promote the recognition and identity of Afghan products and services in the regional neighboring countries.

More than hundred exhibitors from all over the country would be showcasing Afghan Products in a 3 day open exhibition at Kakh Barbud, Dushanbe Tajikistan where potential visitors from Afghanistan, Tajikistan, Russia, Kazakhstan, Uzbekistan, Turkmenistan and Middle East are expected to participate.

Objectives:

The main objectives of behind organizing The 2nd Afghanistan Economic Development Expo in Tajikistan are:

- Introduction of Afghan products and services to the Tajikistani and Central Asian markets by promoting them through The Second Economic Development Expo in Tajikistan and further strengthening trade ties between Afghanistan and Tajikistan.
- Encouraging and boosting investment opportunities to exhibiting sectors
- Tackling existing trade, transport and transit challenges between Afghanistan and Tajikistan.
- Establishing business to business relations which will indeed provide a unique opportunity to explore new market for Afghan products.
- Providing an opportunity for Afghan traders to have future business cooperation with new customers from all over the world.

Exhibiting Sectors:

The main exhibiting sectors in the exhibition have been:

1. **Agriculture:** Fresh & dried fruits, Nuts, Vegetables etc.
2. **Mines:** Gemstone, Marble and Granite, Oil, Gas and etc.
3. **Services:** Banking, Airlines, Education, Advertising, Business Development Services, Health, Telecommunication and Information Technology
4. **Handicrafts:** Carpet, Home textile, Cloths, Jewellery
5. **Construction and Logistic**
6. **Industry:** Food, Beverages, Detergents and Plastics,

CEO/ President

Afghanistan Chamber of Commerce & Industries (ACCI)

Afghanistan Chamber of Commerce and Industries (ACCI) is an independent, legal, non-government, non-profit and non-political organization which serves the private sector of Afghanistan and strives to facilitate an environment conducive to the economic development of the country. ACCI was established in March 2008 through a merger between the former state controlled ACCI (Established in 1931) and the Afghanistan International Chamber of Commerce (AICC) (Established in 2004). As a strong membership organization representing the entire private sector of Afghanistan ACCI provides local businesses and international investors with the support they need for successful operations in Afghanistan, and achieves this through private sector related public policy advocacy, investment and trade promotion as well as other services.

Mission Statement:

ACCI's mission is to serve the private sector of Afghanistan and to promote an environment conducive to the growth of Afghan Economy.

Objectives:

- To serve as the voice of the private sector on legislation, regulation and other issues affecting the Afghan business community.
- To identify and overcome obstacles hindering private sector growth and development.
- To assist in the transition of the Afghan economy to a more private sector-based market economy.
- To preserve the values of Afghan communities with the support of civic, social and cultural programmes.
- To promote investment and the exchange of ideas as well as to communicate with policy-makers on issues related to investment in Afghanistan.
- To provide information and support for both foreign and domestic investments.

Regional Offices:

In addition to its headquarters in Kabul, ACCI operates in 21 provinces of the country and has regional offices in Andkhoy, Badakhshan, Badghis, Bamyan, Farah, Faryab, Ghazni, Herat, Jozjan, Kabul (KCCI), Kandahar, Kapisa, Kunar, Kunduz, Khost, Mazar-e-sharif, Nangarhar, Nimroz, Paktia, Parwan and Takhar.

International Affiliates:

ACCT's has international affiliate offices are:

- 1.Afghan-American Chamber of Commerce (AACC)
- 2.Afghan Business Council Dubai (ABC)
- 3.Netherland Afghanistan Chamber of Commerce (NACC)
- 4.Afghan China Chamber of Commerce (ACCC)
- 5.Iran-Afghan Chamber of Commerce (IACC)
- 6.Canada Afghanistan Business Council (CABC)

New affiliates will be established in Pakistan and Tajikistan in the near future.

International Partners:

In order to facilitate an environment conducive to International trade promotion and strengthen the economic relation between Afghanistan and other countries, ACCI has signed MOUs with the following organizations as its International partners:

- 1.Republic of Tajikistan Chamber of Commerce and Industries (RTCCI)
- 2.Federation of Pakistan Chambers of Commerce and Industries (FPCCI)
- 3.Confederation of Indian Industry (CII)
- 4.Kyrgyzstan Chamber of Commerce and Industries(KCCI)
- 5.Kazakhstan Chamber of Commerce and Industries

ACCI has also got the membership of International Chamber of Commerce (ICC), Islamic Chamber of Commerce (ICCI), SAARC Chambers of Commerce, ECO Chambers of Commerce and

ACCI Departments:

- 1.Business Development Services (BDS) & Trainings
- 2.International Affairs
- 3.Public Relations
- 4.Legal Services and Arbitration
- 5.Membership
- 6.Policy & Government Affairs
- 7.Industry and Export Promotion Department
- 8.Administration
- 9.Finance

Business Development Services (BDS) Department:

The BDS Department is one of ACCI's most active departments providing many types of business development services including:

- Facilitating access to capital
- Preparing technical documents (business plans, project proposals, company profiles, fact sheets, contract documents).
- Capacity building in business and management
- Marketing (branding, advertising, public promotion)
- Consulting services
- Procurement Technical Assistance (PTA)

Employment Services.

International Affairs Department:

The International Affairs Department closely cooperates with the Afghan-Foreign business community and with members already active in foreign trade. The department's goal is to develop and implement strategies to alleviate obstacles to increasing exports and foreign direct investment, and to encourage more members to participate in foreign trade.

Public Relations Department:

The Public Relations, Publications, Marketing & IT Services (PR Department) publishes the ACCI magazine, brochures and all other ACCI publications as well as making promotional film clips. The PR department also provides IT services such as website design and maintenance.

Legal Services and Arbitration Department:

The Legal Department builds and maintains up-to-date advisory capacity on all legal issues related to the economy and business. It has established a respected arbitration court according to international standards, by using modern dispute settlement methods, the court has developed a reputation for providing effective and fair mediation services that are increasingly sought by members.

Policy and Government Affairs Department:

This Department analyses and evaluates all economic policy issues relevant to the Afghan Private Sector. It conducts surveys and collects related information and opinions on key issues, provides policy recommendations to the chamber's CEO for decisions by the Board of Directors or the High Council of Delegates, and supports the ACCI management in promoting these policy positions with parliament, government and the general public.

ACCI Committees:

ACCI has established twenty committees so far to address the challenges of each sector in separate committees and to have a group of the experts who can talk to the government and convey the messages and problems of the private sector to the government. The problems and challenges of the private sector are conveyed to the government through the following committees:

- 1.Export Committee
- 2.Imports' Committee
- 3.Industries' Committee
- 4.SME Committee
- 5.Mines' Committee
- 6.Businesswomen's Committee

- 19.Afghanistan Women Business Association
- 20.Afghan American Chamber of Commerce
- 21.Netherlands Afghanistan Chamber of Commerce
- 22.Afghan Business Council (Dubai)
- 23.Federation of Afghan Craftsman and Traders
- 24.Afghanistan Chamber of Commerce Beijing

Правильное направления торгово-экономического сотрудничества !

Проведения второй выставки «Экономические достижения Афганистана» в нашей столице г. Душанбе 25-27 июня, проходить в преддверии встречи глав трех государств региона Афганистан, Иран и Таджикистана в Кабуле. Наши народы связывают исторически языковые, культурно и религиозные узы. Сегодня в Таджикистане, благодаря проводимой Правительством экономической политике и осуществлению рыночных реформ, наблюдается ощутимый рост в торгово-экономических отношениях между нашими странами. Есть инициативный интерес частного сектора Афганистана к нашей стране - это очевидно. Созданный в республике инвестиционный климат позволяет иностранным инвесторам вкладывать средства на выгодной основе и успешно осуществлять различные проекты в отраслях экономики Таджикистана. Поднять экономику стран можно лишь при непосредственном и заинтересованном участии друг друга. Будучи в Афганистане я наблюдал, как многие афганские и иностранные фирмы видят в Таджикистане, транзитные пути передвижения товаров и особый интерес проявляется в Китайском направлении. Есть трудности, но сам этот факт перспективы данного направления, есть почва думать над этим таджикским предпринимателям. На данном экономическом поле сегодня очень активно и плодотворно работают Казахские бизнесмены. Нам бы хотелось увидеть много таджикских бизнесменов и специалистов работающих в различных проектах в Афганистане, которые укрепили нашу дружбу между нашими народами. Наши столицы отделиют 572км, и научно технический и трудовой потенциал таджикских специалистов в различных отраслях экономики Афганистана востребованы. Медицинские работники, геологи, мелиораторы, учителя и многое другое. Надо отметить, что не стабильная обстановка влияет на это, но отношение афганского народа к нам таджикам особенное. Проведение таких выставок сегодня – это необходимая реальность. И они должны стать регулярными и традиционными. Афганцы хотят, видят на своем рынке таджикского производителя или через таджиков найти товары с России, Китая и Казахстана. Не которые афганские бизнесмены уже работают над альтернативной доставкой своих товаров с России и Казахстана, с севера нашей страны до южной границы, пограничного перехода «Нижний Пяндж», минуя узбекскую территорию, которая экономично и эффективно, благодаря развитию автомобильных дорог нашей республики. Не далек и тот день, когда позиционно мы будем одним из главных экспортеров в области электроэнергетики в регионе. Мы надеемся на плодотворную и успешную работу, всех участников и гостей выставки.

**Представитель торгово-промышленной палаты
Республики Таджикистан в Афганистане
Шоев А.**

Export Promotion Agency of Afghanistan

Introduction to Export Promotion Agency of Afghanistan:

The Export Promotion Agency of Afghanistan (EPAA), an executive arm of the Ministry of Commerce and Industry (MoCI) was established in September 2006 with financial and technical support of GTZ.

EPAA acts as an implementing agency of the export promotion policies of MoCI, promoting exports through exportable offer development tools, advising and advocacy, marketing, coordinating both the public and private sector initiatives to create an enabling environment for competitive exports while contributing to job creation.

Objectives:

- Streamlining the export procedures/process in Afghanistan
- Exploring potential markets for Afghan products and linking up Afghan exporters with foreign importers
- Collecting, analyzing and disseminating trade related information
- Coordinating activities with stakeholders and relevant organizations
- Assisting exporters to participate in high impact trade fairs
- Training small and medium sized enterprises in export readiness

Services:

- Facilitating visa process
- Facilitating export documentation process
- Providing information on market requirement and entry
- Facilitating participation of Afghan exporters in national and international exhibitions
- Providing export and market information

Focus Sector EPAA focuses its activities mainly on the following sectors:

- Carpets
- Gemstones and Marbles
- Handicrafts
- Medicinal Plants
- Fresh and Dried Fruits
- Skins and Leather products

About AISA:

Afghanistan Investment Support Agency

د افغانستان د پانګې اچونې د ملاتړ اداره
اداره حمايه سرمايه گذاري افغانستان

Who we are?

AISA began as an agency that provided licenses to companies wishing to invest in Afghanistan. AISA has now evolved into a pro-active institution in promoting and attracting investment to Afghanistan. To meet the objective of investment promotion we have restructured AISA as follows:

1.Licensing Department:

This department processes investment licenses and facilitates the necessary permits on behalf of investors and vis a vis other relevant Afghan government agencies. It continuously strives to improve processes and procedures and also supports set up and development of license preparation services at AISA's Regional Offices and this makes for proper communication, ensuring that AISA's licensing rules and procedures are properly kept in all Regional Offices.

2.Investment Promotion Department:

This department organizes domestic and foreign conferences and exhibitions to promote investment and provides opportunities for "matchmaking" between companies and investors to proactively assist investors through the investment process. In addition, this department conducts media and information campaigns to promote investment initiatives, as well as provide information on government policies and regulations to promote a transparent investment environment.

3.Research and Policy Department:

This department serves to analyze private sector development issues, develop private sector strategies, complete sector-specific studies on business and investment opportunities, and engage in hands-on sector policy advocacy before the Parliament and Afghan government agencies.

4.Investors' Support Department:

This department offers individual client services during the entire pre & post investment phase. Services include:

- Provision of initial information and advice for foreign and domestic investors: market situation, legal framework, customs, taxation, insurance, availability of key inputs, support programs, investment incentives and opportunities;
 - continuous contact to key investors (each investor support manager has "his"/"her" assigned clients to be assisted during the whole process: "one phase to the customer");
 - facilitating support to investor from other government or private bodies (e.g. private Business Development Services, chambers, donor projects);
 - individual troubleshooting for investors
 - close contacts/good relations to key government and other key agencies
- training of license holders on important topics (e.g. marketing, bidding procedures esp. for domestic SMEs)

Post investment support for key investors (e.g. on double taxation, legal advice, provision of contacts and information, troubleshooting, visa problems/services).

5. Industrial Parks Development Department: the development of Industrial Parks is a very high priority given that the main constraints currently identified by investors are access to land and electricity. IPDD is responsible for the development as well as management of new and modern industrial parks. The Department is currently responsible for managing three USAID-funded industrial parks in Kabul, Mazar and Kandahar and overseeing the contraction of two more parks in Jalalabad and Kabul. IDPD is in the process of developing a regulatory and institutional framework and management plan to effectively coordinate the Industrial Parks development.

o **Regional Offices:** Our Regional Offices, in close cooperation with AISA's Licensing Department in Kabul, prepare licensing documents for AISA headquarters to process. They contribute proactively to mainly domestic support and promotion activities and cooperate closely with the Investment Promotion and Investor Support Departments. They also establish very close cooperation with and support to local government institutions so as to facilitate investments regionally and also are responsible for informing the public on AISA's activities and objectives.

GTZ:

The Deutsche Gesellschaft für Technische Zusammenarbeit (GTZ) is a federally owned organisation. GTZ work worldwide in the field of international cooperation for sustainable development. The mandate is to support the German Government in achieving its development objectives. We provide viable, forward-looking solutions for political, economic, ecological and social development in a globalised world. Sometimes working under difficult conditions, we promote complex reforms and change processes. Our corporate objective is to improve people's lives on a sustainable basis.

GTZ core competency:

is capacity development. Capacity is the ability of people, organizations and societies to shape development on a sustainable basis. This entails identifying problems and then developing and successfully implementing strategies to reach solutions. We support developing and emerging countries in building their capacities and managing the learning and change processes involved.

Who We Work For:

GTZ is based in Eschborn near Frankfurt am Main. It was founded in 1975 as a company under private law. Most of our activities are commissioned by the German Federal Ministry for Economic Cooperation and Development (BMZ). We also operate on behalf of other German ministries, the governments of other countries and international clients - such as the European Commission, the United Nations and the World Bank - as well as on behalf of private companies. We act on a public-benefit basis, channeling all surpluses back into our own international cooperation projects for sustainable development

Worldwide operations:

GTZ has operations in more than 130 countries in Africa, Asia, Latin America, the Mediterranean and Middle Eastern regions, as well as in Europe, Caucasus and Central Asia. It maintains its own offices in 87 countries. The company employs approximately 14,700 staff, about 11,200 of whom are national personnel. 1,800 people are employed at Head Office in Eschborn near Frankfurt am Main and at various locations within Germany.

Vision:

We successfully promote international cooperation which contributes to sustainable development throughout the world.

Our company is strengthening its position on the global market for international cooperation services.

Mission:

We are a government owned corporation with international operations. We implement commissions for the German federal government worldwide and so improve people's living conditions. We provide services that support complex development and reform process

NaWi - Sustainable Promotion of the Afghan Economy,

Goals and Objectives:

The following goals and objectives drive the programme in Kabul and in the North, respectively:

- Contribute to the improvement of the income generation of both the public and the private Afghan institutions by
- capacity building in macroeconomic analysis and policy;
- contributing to economic promotion through the Ministry of Commerce and Industry and other public and private organizations; and
- coordinating the activities within the German organizations and with the program donors. " Improve the framework conditions and the promotion structures of the private sector in the programme regions by

Increasing the value added of selected products in the North;

Improving service provision; and

Creating strategic alliances in order to make local means more profitable to the local economy.

Main Activities:

1. Support institutions, contributing to a more conducive environment for the Afghan economy
2. Build capacities in public, civil and private organisations, enabling them to, for example, get a credit, start a business, make a business plan, improve their efficiency.
3. Support women's businesses and strengthen women in their endeavour to find a place in the Afghan business world, both in the local and foreign markets.
4. Advise public and private sector and bring them closer together.
5. Co-ordinate activities with other donors according to the Paris declaration.

Programme Components:

- Kabul-based:
- Afghanistan Chamber of Commerce and Industries (ACCI)
- Export Promotion Agency of Afghanistan (EPAA)
- Ministry of Commerce and Industry (MoCI)
- Women Employment Promotion Project (WEPP)
- North Afghanistan:
- Small and Medium Enterprise and Business Development Services
- Badakhshan
- Kunduz
- Mazar - e - Sharif
- Takhar

Three Good Reasons:

1. Afghanistan is a fast growing emerging market of strategic importance close to some of the largest and fastest-growing markets in the world.

Afghanistan is strategically located between the energy-rich republics of Central Asia and the major seaports in South Asia providing a key transit route for central Asian oil and gas to markets in South Asia as well as overseas. Also Afghanistan has natural access to markets of neighbouring countries including important fast-growing markets such as China, India and Pakistan.

2. Afghanistan offers a pro-business minded environment with legislation favourable to private investments.

E principles of a free market economy are incorporated in the new Constitution {art. 10} just as the growth of the private sector is a cornerstone of the National Development Strategy. Consequently the President as well as the Government have focused intensely on removing obstacles to private sector development.

3. Afghanistan is rich in natural resources Afghanistan is remarkably rich in mineral resources.

There are currently more than 1,400 identified mineral deposits. These include energy minerals such as oil, gas and coal as well as iron and copper deposits of world quality. Furthermore known precious and semi-precious stones in Afghanistan include emerald, jade, amethyst, alabaster, beryl, lapis lazuli, tourmaline, ruby, quartz, and sapphire. Finally great opportunities for investments exist within the hydrocarbons industry. Following the national privatisation programme most of the major state-owned enterprises have been slated for international tender 2006-2008 which has made entry into all these sectors easier.

Afghanistan Investment Priority Sectors

1. Agriculture and agriculture-related industries

Agriculture is a fundamental means of livelihood in Afghanistan, generating 50% of the country's GDP and supporting 85% of its people. The climate of Afghanistan is well suited for the cultivation of horticultural crops and Afghanistan is the geographic origin of many high-end crops like raisins, pomegranates, pistachios and almonds. There are approximately one million farms in Afghanistan and more than 2,000 wholesalers for horticulture products. Intensive commercial farming increases sustainable economic growth in rural areas, encourages competition, contributes to regional development and helps sustain the growth of private businesses related to it. Investment in agro-business and agro-processing will make a positive impact on the economic development of Afghanistan and will give Afghans pride in producing and purchasing local Afghan products. It should be the goal of a modern agricultural sector for Afghanistan to become self-sufficient again and subsequently be able to expand into an export industry.

One industry related to the agricultural sector is for example packaging which provides great opportunities for investors, as demand for Afghan agricultural goods is high, but current packaging procedures are outdated and damage fresh goods en route to markets and prevents an effective export business for many crops. Some 20-40% of post-harvest horticulture products are wasted because of poor packaging.

Processing is another great investment opportunity. It is estimated that the processed fruits and vegetables market amounts to around 1.4 to 2.5 billion Afghani (US \$28-60 million)⁷ demonstrating that the market potential for processed agricultural products including snack foods, packaged biscuits, fruits concentrates, pickles and fresh fruit jams is enormous. An example is fruit juices whose market value in Afghanistan is approximately 20 million USD with a yearly growth rate of around 15%.⁸ In 2003 alone, Afghanistan imported 40 million litres of juices, mostly from Pakistan and Iran. Domestic production of machinery related to the agro-business and agro-processing industries is a lucrative opportunity for investors given that current equipment in Afghanistan is currently imported from abroad, or date back from the Soviet era. Demand for new machinery, such as grain cleaning and sieving equipment for flour, and tractor trolleys and ploughs, will continue to grow and be vital to the production of agricultural goods. In the long term, the manufacture of local machinery will be profitable to the agricultural industry.

2. Construction materials:

Another interesting area of investment is the construction materials industries in order to improve the supply of quality products from within the country. These, if up to international standards, might grow into an export industry and hence have a future that way. While in the first years of reconstruction it was mainly foreign construction companies who attracted the major construction contracts, it is now the local construction industry which is shaping up to acquire the necessary capacity to take over from their international competitors as they offer a considerable price advantage.

Good quality construction material produced locally will hence be an important and profitable sector to drive the local construction industry.

3. Telecommunication:

Core telecommunication service providers supply the Afghan market already in a sufficient manner with increased competition and price pressures. While there are still opportunities for mobile service providers, a far more virgin market represents the supply and service area of the telecommunication sector. Examples are: Data processing, basic business-processing operations information and communication technology (ICT), data transfer, process control and perhaps call centres. These areas are attractive as they do not depend on the overall infrastructure of Afghanistan such as airports and roads but investors can bring and rely on their own infrastructure such as satellite communication equipment etc

The Carpet Sector

Afghanistan is distinguished worldwide for its delicate handmade carpets with superior quality, color and designs. Afghan carpets serve as a national identity by reflecting the country's rich art, culture and history through its exquisite hand woven texture. The essence of Afghan carpets remains in the fact that our weavers, men and women, have a deep entrenched love and appreciation for the product.

The cheap labor force and cheap raw material has given Afghanistan a preference in production of carpets. The carpet industry employs 4 million Afghans and continues to strive towards a much higher potential

Afghanistan's Carpet Exports:

The beautiful textures and designs of Afghanistan carpet has attracted the attention of several neighboring countries traders and buyers from several European and American countries. Carpets are Afghanistan's largest export, valued at \$150 M.

The Carpet exports since the year 2000 has reached approximately to 36%. Currently Afghanistan produces over 2 million square meters of carpets increased from \$ 140 million in 2005 to \$ 170 million in 2008 which shows the increasing interest of international buyers and national traders in this sector.

Afghanistan Chamber of Commerce and Industries has put immense effort in facilitating the carpet industry needs and displaying Afghan carpets on a national and international level.

International carpet fairs have opened new opportunities for Afghan producers/ exporters, enabling them to have higher recognition and increased presence in global market. ACCI is encouraging and enabling the carpet sector to conduct more of the final processing steps required to produce a finished carpet, which includes the final cutting and washing of the product.

Investment Opportunities in Carpet Sector:

- Production and Finishing: investments in these related sectors of carpets lead to increasing sales of Afghan Carpets in global markets.
- Transportation: investors who have the ability to produce sufficient volume to Air cargo shipments of carpets from Afghanistan are highly welcomed since majority of carpet exports till yet are made to Pakistan due to cheaper transportation costs to Europe and Other countries.
- Raw Material: Investment in production and finishing could lead to investment in other sectors such as raw materials (wool) as well, which is currently imported from Pakistan due to lack of high quality and spanned wool in Afghanistan.

The Dried Fruits Sector

Afghanistan's Dry fruits and Nuts division is a vital component in the country's prominent location amongst South Asian countries.

Afghanistan dried fruits are not only famous internationally but also domestically. Currently the main concentration of various private sector agencies and Afghan traders are increasing the production and facilitating the export opportunities for the products.

Afghanistan Dried Fruit exports:

The export of dried fruits has shown a tremendous increase in the latest year, the main demander of dried fruits have been America, Europe, United Arab Emirates and South Asian countries consequently by the end of March 2010 the total value of exports have been more than \$.

The main products getting exported have mainly been: " Almonds

- Raisins
- Pistachios
- Dried apricots
- Walnuts
- Peanuts

Investment opportunities in this sector:

Though the dried fruit sector in Afghanistan is annually showing an eye catching, gradual increase yet this sector implies investments to be undertaken.

The poor quality harvesting, packing and processing still made using labor force has become one of the main challenges in the dried fruits sector.

Despite challenges faced by this sector, it has been proved as a potential sector creating employment opportunities for more than 50% of the total population.

The Fresh Fruits Sector

Afghanistan is distinguished in the region for its quality fresh fruits production. It contributes as a main exporter in the international markets. Domestically, many provinces have now composed their local export unions to promote the export of fresh fruits while internationally, the unique taste and organic quality of Afghanistan's fresh fruits have made Afghanistan one of the major exporters of quality Fresh fruits to regional countries like China, Tajikistan, Uzbekistan, Turkmenistan, India, Russia, UAE and many more.

Afghanistan Fresh fruits Exports:

The fresh fruit sector unlike dried fruit sector is another contributing sector in the GDP of the country contributing more than \$15 million by the end of the current fiscal year.

Afghanistan's fresh fruits regions have mainly been the south west, north eastern regions.

Afghanistan is particularly prominent for its variety of fresh fruits mainly:

- Grapes
- Muskmelons
- Apples
- Pomegranates

It is one of the few countries in the world who possess such a wide range of variety in grapes. Within Afghanistan Kandahar is a crucial location for fresh fruits production like pomegranate, apples and grapes.

Investment opportunities in fresh fruit sectors:

Investigations show that several investment opportunities exist in the fresh fruit sector in Afghanistan on an average \$90 million are estimated to be taking place till 2015.

Provided that, these investments are taking place till 2015, Afghanistan fresh fruit sector will be able to give an annual budget of \$1 billion.

The Marble Sector

Afghanistan's marble industry is setting foot in international markets as one of world finest marble producers. International trade is becoming the main focus amongst global traders.

This will allow marble business to serve as a thriving force in the afghan economy Marble quarries exist throughout the countries, with main deposits in Southern and northern regions of the country.

Afghanistan is having 70 precious mines out of which marble has allocated 35 mines with 40 different colors.

Marble has got several types and kind:

- Onyx marble
- White marble
- Cream marble
- Green and Black
- MarbleGranite

Investment opportunities in marble sector:

As per the report from ministry of mines, 90% of marble mines in Afghanistan have not been discovered.

The discovery of this sector can take more than 1000 years.

This sector can employ more than 15,000 direct and 25,000 indirect employment opportunities for the people. According to the minister of mines around \$100 million investment is needed in this sector for a period of time which yields \$450 million for the country.

Afghanistan's Saffron

Saffron is a unique and expensive spice in the world. It is a subtropical crop with low water requirement which is usually irrigated once or twice a year.

Saffron grows particularly in hot and dry climates. Thus western region of Afghanistan has a suitable climate for its production, especially Herat Province. The major saffron cultivation areas are Ghoryan and Pashtoon Zarghoon districts of Herat province. Last year 7.5 kg saffron produced a per hectare in the province.

As a result of increase in international demand for saffron over the past few years, a dramatic increase in the production of saffron has been observed in the western part of Afghanistan. A survey conducted by the Ministry of Agriculture, Irrigation and Livestock shows that 20 provinces in Afghanistan have a favorable climate for saffron cultivation as such the Ministry has a plan to distribute saffron corn to the farmers in such provinces. The income generation from saffron cultivation is higher than any other crop in the country. Hence saffron could be a best substitute for poppy cultivation. The price for 1kg of Afghan saffron is about US\$ 4000 in the international market. This demand has an upward trend owing to the high quality of the locally produced saffron.

Given the lack of processing facilities in the country, Afghan saffron is exported to neighboring countries for processing. After being processed, it is sold in foreign markets by the country processing them under their own brand name. In order to promote the exports of saffron under the Afghan brand there is a dire need to establish processing centers in the country. Public and private sector authorities should coordinate their efforts to address the labeling issue of this product and establish saffron processing and packaging factories.

The Gemstones Sector

Afghanistan, being a landlocked and mountainous country is worldwide famous for its yet to be discovered precious and semi precious stones which are called the hidden treasures of Afghanistan.

The Hindukush, Spenghar and Baba mountains have been some of the highest and prominent mountains in the world having with them various unused mines like Gemstones, Steel, minerals like Chrome, metal, Cu, Zn, Pb, Mo... etc

Apart from above mentioned metallic mineral, Afghanistan consist of non metallic minerals like talcum, Mica, lime stone, fluorite, granite, quartz, gabro, graphite, gypsum and... etc

Some of which are mentioned below:

Tourmaline:

Tourmaline crystals are triangular in makeup having different colors like green and yellow. Mostly found in a pseudo hexagonal shape reflecting multi colors. The main deposits to this stone have been mainly Kunar, badakhshan, Nooristan, and laghman provinces.

Beryl:

Beryl is one of the finest and precious stones popularly known for its fine color. Some of its prominent types are green emerald and blue aquamarine whose finest quality crystals are found in Panjshir, Nooristan and Badakhshan's pegmatite.

Kam Air

Kam Air was the first private air-line in Afghanistan receiving our AOC in August 2003. Kam Air is the flag ship of the Kam group and has under the leadership of its founder and President Zamari Kamgar grown to become the name that is trusted as a safe and reliable air-line by both the local and international community alike.

Kam Air has this year received its letter of compliance from ICAO proving that we meet with international standards. Kam Air owns and operates B767-200, MD-82 and B727-200. We also has a number of Russian aircraft and helicopters which are available for charter.

International routes include Dubai, New Delhi, Mashed, Dushanbe, Almaty, Urumqi, Islamabad and Peshawar. Our local flights currently are to Herat, Mazar-i-Sharif, Kandahar, Trinkot and Kunduz.

Cargo services inside Afghanistan and into Afghanistan. We have available 8 Boeing 747-2, IL-76 and 2 AN-26, Helicopters Mi-17-Mi8.

Kam Construction

Established in 2002 Kam Construction has constructed numerous building including schools, police training centres, erected bridges on the Salang pass. Kam Construction has also built roads which among others include the main asphalt road through Maimana City. Although based in the north of Afghanistan we have the capability of working in any part of the country.

Kam Trading

Kam Trading is the import and export arm of the Kam Group, it is the oldest of the companies in the group, and it was established more than 20 years ago. It specialises in the import of fuel into Afghanistan storage and distribution. Kam trading other major import commodity is wheat and flour.

Kam International Oil

Background

The KAM Group has once again, as with the launching of the first private airline in Afghanistan shown vision in building the first oil refinery in Afghanistan. Located near the border town of Hairatan the refinery overlooked the Amu-Darya river that serves as a natural border between Afghanistan and Uzbekistan. Built at a cost of 25 million USD it stands a symbol of a new Afghanistan filled with future and hope.

Phase 1 of the refinery produces 500 tons per day of fuel, 180 000 tons per year. These figures are divided into the production of diesel, kerosene and petrol. The plant also has the capability of producing aviation fuel, bitumen, paraffin and various oils. Independent certification of the production will be given by SGS, Kabul; Kam International Oil also invites its customers to conduct their own tests if needed.

We pride ourselves on the quality of our fuel it is Afghanistan's finest.

Via our logistics company we provide our fleet of tankers and if we needed can fly fuel to anywhere in Afghanistan with our air-craft.

Kam Logistics

Started in 2009 to help augment and enhance the groups existing companies. Kam Logistics comes with the same branding that has made KAM a name you can rely on quality and service. We provide door to door transportation within Afghanistan. There is no logistics problem that we will not solve; our staff have years of experience in moving cargo in Afghanistan.

At Kam Logistics we not only have at our disposal the, Kam Air fleet of air-craft, but also trucks and tankers.

We have for the convenience of our customers warehousing in Kabul, Mazar-i-Sharif, Hairatan as well as in the Uzbekistan border city of Termez where our facility borders the Port and has a rail siding.

In 2010 we will add to our fleet 500 VOLVO Trucks and new container trailers, fuel/gas tankers as well as refrigeration units.

NEWS In 2010 we will add to our fleet, 500 Volvo trucks, new container trailers, fuel/gas tankers and refrigeration units.

Kam Travel & Tourism

This company was formed in 2007 with the aim of providing excellent service to travellers both from Afghanistan and abroad who visit Afghanistan.

Kam Travel provides a complete one stop shop providing ticketing for over 50 air-lines worldwide. We also make hotel and car rental reservations. As well as assisting in the obtaining of visas for our customers.

Kam Foundation

A welfare foundation established in 2005 to assist and protect the needy. Our projects at this time include:

- supporting orphans
- Sponsoring various sports.
- Supporting education

Your attention in any of these projects will be valued.

Projects for completion in 2010

Kam Khyber

With Kam Khyber we will continue to research the opportunities that are available in Afghanistan for tender in the natural resource sector.

The sectors we are working in include gold and precious stones.

Kam CAS

Kam CAS is an initiative to dam and divert water from the Amu Darya river in the Khamyab district via a 10 km pipeline then into a 100km canal flowing at 30 m/second.

The project will provide for 80 000 hectares to be put under irrigation which will translate into 50 000 employment opportunities in the Aandkhoy district.

Estimated cost of the project is 150 million USD our partner for this project is UK based company Castic.

Kam Water

Kam Water will bottle water fresh from the Tashkorkhan mountain springs. The plant will also produce pomegranate concentrate.

Afghan United Bank is proud to be the first bank to obtain permission for Islamic Banking from Da Afghanistan Bank (the Central Bank of Afghanistan). The Bank desires to play a pioneering role in this field, and has committed its resources for building a solid foundation for Islamic banking in the country. It is making concerted efforts to develop products and to prepare for conversion of the Bank into the first full-fledged Islamic Bank in Afghanistan as soon as the laws and regulatory framework for Islamic Banking are approved. The Bank is operating two full-fledged Islamic banking branches, and is aiming to open many more. The deposit growth of Islamic banking has been very encouraging, and the keen interest shown by our customers in Islamic banking shows that Islamic banking is the future of banking in Afghanistan.

• Operation

Afghan United Bank commenced commercial operations as a conventional commercial bank in October 2007. The bank has extended its branch network to all the major commercial centers as well as to the important border points of the country.

In the future, the bank aims to reach all the provinces and important districts so as to be able to serve the interests of the business community all over the country and, thereby have an effective role in the developmental processes of the country.

Over the last two years the balance sheet footings have grown by four including important areas such as assets, deposits, capital and credits.

• Products

New products being gradually launched include Islamic Banking products, Housing Loans, SME loan products, Agricultural Loans along with new conventional banking products. These are expected to contribute at least 10% on the asset and liability sides by 2010. The contribution of these new products is expected to reach about 15% over the life of this Strategic Plan. The following specific major categories of products are either being offered to customers or are being considered for introduction:-

- Current Accounts
- Fixed Deposit Accounts
- Saving Accounts
- Local and International Payments
- Islamic banking products particularly Leasing
- Project Finance
- Debit and Credit cards
- Agricultural and agro-based industry loans
- Housing Loans
- SME Financing products

• Future Expectations

AUBs liabilities and assets have seen a much higher than expected growth during the current year and the trend is expected to continue into the foreseeable future. Assets, liabilities, capital are all expected to increase at **annual rates of 60 to 70 % over the life of this plan**. Credit facilities will increase conservatively thus affording a positive liquidity position over the period of the plan.

AZIZI BANK: FOR YOUR A-Z BANKING NEEDS

Azizi Bank is a commercial bank set up in Afghanistan in terms of the licensing policy of Da Afghanistan Bank, the Central Bank of the country. The Bank was granted a license on 13th June 2006 and commenced operations from the same date. Azizi Bank, a product of Afghan vision and enterprise, has been promoted by two leading businessmen - Mr. Mirwais Azizi & family (of the Azizi Hotak Group) and Haji Ali Akbar Zhawandai.

The promoters are committed to build a sound financial institution and, with a view to offer the utmost safety to the bank's customers, set up the bank with an initial paid-up capital of USD 7.5 million that was 150% of the central bank stipulated minimum of USD 5 million. Now the capital is USD 42.5 million as on December 31, 2009.

The Management team at the Bank is a mix of youth and experience and ably supported by a young and well-trained operating team is aiming at transforming the banking scene in the country by offering a truly professional and pleasurable experience to the customers. The bank today has 1350+ strong team of employees and with a 20% female work force is playing a quiet but effective role in women's emancipation and empowerment. Presently we have 66 branches across the country - 27 branches in Kabul and 39 branches in the provinces and plans to have 90 branches by year end 2010.

In the year 2009, we achieved another milestone in banking history of Afghanistan by purchasing the Development Bank of Afghanistan from Da Afghanistan Bank (Central Bank of Afghanistan) and now we have restarted the banking operations with the new name as Bakhtar Bank (100% subsidiary of Azizi Bank) with 15 branches license in hand from June 21, 2009. Now 16 branches have already been opened.

The deposit products (Current Account, Savings Fund, and Fixed/Term Deposits) have been designed to encourage the saving habit and offer convenience and reasonable returns. Credit products introduced by the bank take care of the basic requirements and promote enterprise (Fund-based facilities e.g. Term/Working capital Loans and Non-fund based facilities e.g. Letters of Credit and Financial/Performance Guarantees for Trade and Industry). During 2009, the Bank started Mortgage loans for purchase of Commercial Offices, Shops & Residential Apartments.

ISLAMIC BANKING

Azizi Bank plans to start Islamic Banking as a window and plans to have full fledged Islamic Banking in its subsidiary Bank: Bakhtar Bank. In future may consider converting Bakhtar Bank as an Islamic Bank to cater to the emerging needs of Afghanistan.

Naikbeen Control panel Is first and one of biggies Domains and Hosting Service provider in Afghanistan. Naikbeen Control Panel is specializing in customized desktop and online business applications, web site, and information management systems. Founded in 2001 with the intention of imparting the urge to lead in the field of Software Development, Web Hosting Domain Registration and Information technology to the masses, Naikbeen Control panel touched the extremes of excellence in the field of Information Systems and IT infrastructure.

Naikbeen Control Panel provides technical services that are essential for companies that rely on their computer systems running efficiently at all times. Naikbeen Control Panel has the expertise and specialization to customize and maintain systems for the professional business community.

Business Registration:

Registered in Afghanistan Investment Support Agency (AISA); Registration Number is (D-29918) And Registered In Afghanistan Chamber Of Commerce Industrial (ACCI), Also we are Golden Member of (ACCI). We have more then 8 years Experience in Web Hosting, Designing, Software Development and (ICT). We offer 24/7/365 phone support, 99.9% uptime, Naikbeen Control Panel also printing your Company logo and text on Glass, T-shirt, Pin, and some thing more.

Software Development:

Naikbeen Control Panel is specializing in customized desktop and online business applications. This Software project will help the company in managing all the financial transactions, inventory system, product tracking, stock information, sale purchase information etc. They will be able to produce timely reports from the system on the basis of very flexible search and filtering system. It will have a user friendly interface to enter and record the data into the system. Software and Application system is useable for Online Business and Office. Online user able to check all records for any where in any country any time. And offline user only able to check system when they login in local area Network.

Hosting:

we have 30 day money back guarantee. Your site will be on a top-of-the-line Dual Xeon server that can provide instant backups of your site (this is available via the control panel). Our control panel is one of the best in the industry, and has over 52 scripts that can be installed with a click of the mouse.

پیام محترم دوکتور غلام محمد بیلاقی سرپرست وزارت تجارت صنایع افغانستان به مناسبت دومین نمایشگاه پیشرفتهای اقتصادی افغانستان در شهر دوشنبه پایتخت جمهوری تاجکستان

مسرت دارم که در دومین نمایشگاه پیشرفتهای اقتصادی جمهوری اسلامی افغانستان در شهر زیبای دوشنبه پایتخت کشور دوست و برادر جمهوری تاجکستان اشتراک مینمایم از نمایشگاه قبلی پیشرفتهای اقتصادی افغانستان در سال گذشته هئیت و تجار افغانی خاطرات بی نهایت زیبایی داشته و علاقمندی برادران تاجک در رابطه به پیشرفتهای افغانستان در بخش های اقتصادی باعث گردید که تا امسال تعداد کثیری از تجار افغانی در این نمایشگاه حضور یابند. این امر از یک طرف انگیزه آفرین برای تعارف بیشتر از بیش تاجران و مولدین کشور با هم برادر است و از سوی دیگر میزان آگاهی و هدف های تجار دو کشور را پیوسته به هم در مبادله دواطلبانه همکاری رشد میدهد جداً مایه استقبال ما است ،طوریکه همه میدانند نمایشگاه ها محل خوبی جهت معرفی پیشرفتهای اقتصادی و اجتماعی کشورها ، وسیله افزایش معلومات در سطوح مختلف و دانش عمومی علمی و فنی بوده و برتری آن به تناسب سایر روشهای تبلیغاتی زنده و مؤثر میباشد. زیرا در نمایشگاه ها عوامل چون تولید کننده ، توزیع کننده ، مصرف کننده در یک مکان و زمان مناسب و واحد با هم یکجا شده در زمان محدود راهی را که بعضاً خیلی طولانی سپری نماید ، کوتاه ساخته و از همین علت است که امروز اغلب کارشناسان امور تبلیغاتی و بازاریابی نمایشگاه ها را یکی از بهترین و مهمترین شیوه بازاریابی تلقی مینمایند و مدعی هستند که میزان موفقیت هر کشور و یا هر کمپنی در امر صادرات بستگی به معرفی امتعه صادراتی شان دارد که این اصل نیز یکی از وظایف نمایشگاه ها میباشد .یقین کامل دارم تدویر همچو نمایشگاه زمینه ساز گسترش روز افزون مبادلات امتعه تجارتی بوده ، همزمان فرصت مناسب برای ایجاد تفاهم و دوستی بین تجار دو کشور را نیز فراهم ساخته با مثابه پل عبوری بهتری غرض تامین و استحکام روابط اقتصادی میان دو کشور را بیشتر از پیش سرعت بخشیده نقش فزاینده و اثر گذار را ایفا خواهد کرد ، اینجانب در حالیکه تدویر موفقانه نمایشگاه پرشان و جلال حاضر را به دست اندر کاران و از سازمان دهنده گان ستایش بعمل آورده موفقیت مزید و توفیق بیشتر شان را از بارگاه ایزد متعال خواهانم . مطمئن ام روزی ما شاید تدویر و میزبان خوبی نمایشگاه اختصاصی تولیدات و دست آوردهای اقتصادی مردم شریف جمهوری تاجکستان در کشور عزیز خود افغانستان باشیم ، اجازه دهید در اخیر از دعوتی که از اینجانب ، هئیت معیتی ام و تجار ملی افغانستان در این نمایشگاه نموده اید اظهار سپاس و امتنان نمایم.

به امید توسعه هر چه بیشتر و دوام دوستی و همکاری های مردم و حکومت تاجکستان و افغانستان.

پیام رئیس و هیأت رهبری اتاق تجارت و صنایع افغانستان پیرامون برگزاری دومین نمایشگاه و کنفرانس پیشرفت های اقتصادی افغانستان در جمهوری تاجکستان

جای بسا خوشی و مسرت است که دو کشور برادر، همسایه و هم زبان تاجک و افغان به ادامه ای برگزاری اولین نمایشگاه و کنفرانس پیشرفت های اقتصادی افغانستان در سال قبل، شاهد برگزاری دومین نمایشگاه و کنفرانس آن هستیم. این فرصت بزرگ را مقدمتر از همه برای برادر و دوست عزیزم جلالتمآب شریف سعید رئیس اتاق تجارت و صنایع جمهوری تاجکستان و از طریق ایشان به مردم شریف و نجیب تاجک تبریک و تهنیت تقدیم میدارم.

منطقه ی که ما در آن زندگی میکنیم مملو از توانمندی های بالقوه طبیعی و اقتصادی است که استفاده از آنها مستلزم شناخت درست از آن ظرفیت ها، تبادل تجارب و معلومات و توسعه روابط تجاری و اقتصادی میان کشور های منطقه میباشد. افغانستان، که در قلب آسیا موقعیت دارد، میتواند نقشی بسیار اساسی را در توسعه و پیشرفت اقتصادی در منطقه بازی نماید.

افغانستان طی نه سال گذشته شاهد تحولات چشمگیری در زمینه های رشد و توسعه اقتصادی بوده که مظاهر عینی آنرا می توان در ساختار روبه رشد زیربناهای فیزیکی و اداری، جذب سرمایه گذاری های داخلی و خارجی و ایجاد و فعالیت ده ها هزار شرکت های خصوصی در بخش های خدمات بانکی، ترانسپورتی، ساختمانی، صنایع، معادن، زراعت و مالداری، دید. و برعلاوه، موقعیت استراتژیک افغانستان از یک طرف میتواند زمینه خوبی را برای تبادل کالا ها و خدمات تجاری میان کشور های آسیای جنوبی و مرکزی و کشور های منطقه فراهم کند و از طرف هم با توجه با مزیت های نسبی که افغانستان دارد میتواند کالا ها و خدمات خوبی را برای بازار های منطقه و جهان عرضه نموده و در مقابل ضروریات و نیازمندی های خود را از خارج تهیه نماید. کشور برادر و دوست ما تاجکستان که مرز طویل با افغانستان دارد، در عرصه استخراج معادن، پروسس مواد زراعتی، تولید انرژی برق و ترانزیت کالا ها میان افغانستان و سایر کشور های آسیای میانه و چین، نقش کلیدی را در رشد و توسعه اقتصادی منطقه و به خصوص افغانستان بازی میکند.

تدویر دومین نمایشگاه پیشرفت های اقتصادی افغانستان در شهر زیبای دوشنبه، فرصت خوبی است برای شناسایی این امکانات، ایجاد زمینه های مشترک سرمایه گذاری، تبادل تجارب و اندخته های و بالاخره نزدیکی دو ملت برادر. روی همین ملحوظ از تمامی گرداننده گان این تلاش مشترک و اقدام نیک در افغانستان و تاجکستان اظهار قدردانی و تشکری می نمایم.

به امید اینکه سالیان آتی شاهد راه اندازی همچون نمایشگاه ها و کنفرانس ها میان دو کشور باشیم.

شیرخان فرنود
